Determination of Financial Assistance Eligibility – Generally, Eligible Persons are eligible for Financial Assistance, using a sliding scale, when their Family Income is at or below 400% of the Federal Poverty Guidelines (FPG). Eligibility for Financial Assistance means that Eligible Persons will have their care covered fully or partially, and they will not be billed more than "Amounts Generally Billed" (AGB) to insured persons (AGB, as defined in IRC Section 501(r) by the Internal Revenue Service). Financial Assistance levels, based solely on Family Income and FPG, are:

Family Size

400% of 2020	FPG	1	2	3	4	5	6	7	8
51,040	68,959	20%							
68,960	86,879	30%	20%						
86,880	104,799	40%	30%	20%					
104,800	122,719	50%	40%	30%	20%				
122,720	140,639	60%	50%	40%	30%	20%			
140,640	158,559	70%	60%	50%	40%	30%	20%		
158,560	176,479	80%	70%	60%	50%	40%	30%	20%	
176,480	193,200	90%	80%	70%	60%	50%	40%	30%	20%

Note: Other criteria beyond FPG are also considered (i.e., availability of cash or other assets that may be converted to cash, and excess monthly net income relative to monthly household expenditures), which may result in exceptions to the preceding. If no Family Income is reported, information will be required as to how daily needs are met. BCH’s Patient Financial Services (PFS) reviews submitted applications which are complete, and determines Financial Assistance Eligibility in accordance with BCH’s Financial Assistance Policy. Incomplete applications are not considered, but applicants are notified and given an opportunity to furnish the missing documentation/information.

BCH also translates its FAP, FAP Application Form and the Plain Language Summary of its FAP into languages wherein the primary language of the residents of the community served by BCH represents 5 percent or 1,000; whichever is less; of the population of individuals likely to be affected or encountered by BCH. Translated versions available upon request in person at the address below; and on BCH’s website.
